BIKES ON TRANSIT

WWW.TRANSLINK.CA

CALL 604 953 3333

All **buses** have bike racks that fit a maximum of 2 bikes per bus. Bikes are allowed at all hours at no additional charge. • Bikes are allowed on **SeaBus** at all hours at no additional charge. Board the SeaBus through the rear doors. **Bike lockers** are available at Phibbs Exchange.

SYMBOLS TO KNOW: LOOK FOR THESE ON STREETS AND SIGNS

Painted buffer Increases the distance between vehicles and cyclists. Cars should not travel or park on buffers.

Elephant's feet markings indicate crossings where cyclists are permitted to ride. These crossings are often shared with pedestrians.

Dedicated bicycle lane: Motor vehicles, buses and motorcycles are not permitted to travel or stop in this lane unless making a right turn onto a cross street. Transit buses may stop at designated stops.

Sharrow (shared roadway) Indicates where cyclists should position themselves while sharing the roadway with other vehicles.

Shared Use/Multi-use Pathway Indicates zones where pedestrians and cyclists share the pathway. Path users should keep the right and pass on the left.

Special vehicle lanes are reserved for specified vehicles (buses, carpools, bikes). Cyclists may ride in these lanes, unless signage prohibits cycling.

Bike Box indicates area where cyclists may position themselves at a red signal, allowing them to turn left, right or go straight in advance of other vehicles.

TRIGGERING TRAFFIC SIGNALS

Many signals are triggered by electrically charged wires buried under the pavement. Look for cut lines in the pavement. Depending on the shape, the most sensitive spots are: **Diamonds**, just inside one of the points; **Circles**, about a quarter of the way in; **Rectangles**, up front, in the middle.

Leaning your bike over can help trigger the traffic light sensor

If you cannot trigger a light with a metal frame bike, call the municipality so they can adjust the signal's sensitivity.

BIKE ROUTES

Off-street or protected bicycle route
might be shared with pedestrians
- paved
- unpaved

On-street bicycle route
with signs or pavement markings or both
- local street
- painted bike lane on major street
- shared lane on major street

Other on-street bicycle route
recommended but not signed or marked
- local street
- major street

- library
- school
- community and recreation centres
- MTB mountain bike trail access
- steep section, arrow points uphill
- one way

Disclaimer: This bike map was developed as a coordinated effort between the City of North Vancouver, the District of North Vancouver, and the District of West Vancouver.
